Cautionary Statement Regarding Forward-Looking Statements

Statements in this Quarterly Report on Form 10-Q that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including statements regarding management's expectations, hopes, intentions or strategies regarding the future. Forward-looking statements include statements regarding the Trust's future operations and prospects, the markets for real estate in the areas in which the Trust owns real estate, applicable zoning regulations, the markets for oil and gas, production limits on prorated oil and gas wells authorized by the Railroad Commission of Texas, expected competition, management's intent, beliefs or current expectations with respect to the Trust's future financial performance and other matters. All forward-looking statements in this Report are based on information available to us as of the date this Report is filed with the Securities and Exchange Commission, and we assume no responsibility to update any such forward-looking statements, except as required by law. All forward-looking statements are subject to a number of risks, uncertainties and other factors that could cause our actual results, performance, prospects or opportunities to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and other factors include, but are not limited to, the factors discussed in Item 1A "Risk Factors" of Part I of our Annual Report to the Securities and Exchange Commission on Form 10-K for the year ended December 31, 2011, and in Part I, Item 2 "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Part II, Item 1A "Risk Factors" of this Quarterly Report on Form 10-Q.

TEXAS PACIFIC LAND TRUST

NOTES TO UNAUDITED FINANCIAL STATEMENTS

JUNE 30, 2012

- (1) In the opinion of management, the accompanying unaudited financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position of Texas Pacific Land Trust (the "Trust") as of June 30, 2012 and the results of its operations for the three month and six month periods ended June 30, 2012 and 2011, respectively, and its cash flows for the six month periods ended June 30, 2012 and 2011, respectively. The financial statements and footnotes included herein should be read in conjunction with the Trust's annual financial statements as of December 31, 2011 and 2010 and for each of the years in the three year period ended December 31, 2011 included in the Trust's Annual Report on Form 10-K for the year ended December 31, 2011.
- (2) We evaluate events that occur after the balance sheet date but before financial statements are, or are available to be, issued to determine if a material event requires our amending the financial statements or disclosing the event. We evaluated subsequent events through August 3, 2012, the date we issued these financial statements.
- (3) No value has been assigned to the land held by the Trust other than parcels which have been acquired through foreclosure and a limited number of parcels which have been acquired because they were offered for sale and were contiguous to parcels already owned by the Trust. Consequently, no allowance for depletion is computed, and no charge to income is made, with respect thereto, and no cost is deducted from the proceeds of the land sales in computing gain or loss thereon.
- (4) The Sub-shares and the Certificates of Proprietary Interest are freely interchangeable in the ratio of one Certificate of Proprietary Interest for 3,000 Sub-shares or 3,000 Sub-shares for one Certificate of Proprietary Interest.
- (5) The Trust's effective Federal income tax rate is less than the 34% statutory rate because taxable income is reduced by statutory percentage depletion allowed on mineral royalty income.
- (6) The results of operations for the three month and six month periods ended June 30, 2012 are not necessarily indicative of the results to be expected for the full year.
- (7) The Trust invests cash in excess of daily requirements primarily in bank deposit and savings accounts and certificates of deposit with maturities of ninety days or less. Such investments are deemed to be highly liquid debt instruments and classified as cash equivalents for purposes of the statements of cash flows.

Supplemental cash flow information for the six month periods ended June 30, 2012 and 2011 is summarized as follows:

	<u>2012</u>	<u>2011</u>
Income taxes paid	\$ 6,924,051	\$ 4,289,759

- (8) ASC 280, "Segment Reporting," establishes standards for the way public business enterprises are to report information about operating segments. In accordance with ASC 280, the Trust utilizes the management approach as a basis for identifying reportable segments. The management approach is based on the way that management organizes the segments within the enterprise for making operating decisions and assessing performance. The Trust's management views its operations as one segment and believes the only significant activity is managing the land which was conveyed to the Trust in 1888. The Trust's management makes decisions about resource allocation and performance assessment based on the same financial information presented in these financial statements. Managing the land includes sales and leases of such land, and the retention of oil and gas royalties.

- (9) In June 2011, the FASB issued Accounting Standards Update No. 2011-05, “*Comprehensive Income (Topic 220): Presentation of Comprehensive Income*” (“ASU 2011-05”). ASU 2011-05 amends existing guidance by allowing only two options for presenting the components of net income and other comprehensive income: (1) in a single continuous financial statement, statement of comprehensive income or (2) in two separate but consecutive financial statements, consisting of an income statement followed by a separate statement of other comprehensive income. ASU No. 2011-05 requires retrospective application, and it is effective for fiscal years beginning after December 15, 2011. We adopted the provisions of ASU 2011-05 as of January 1, 2012 using the single continuous statement presentation. The adoption of this guidance did not have a material effect on our financial statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read together with (i) the factors discussed in Item 1A “Risk Factors” of Part I of our Annual Report to the Securities and Exchange Commission on Form 10-K for the year ended December 31, 2011, (ii) the factors discussed in Part II, Item 1A “Risk Factors,” if any, of this Quarterly Report on Form 10-Q and (iii) the Financial Statements, including the Notes thereto, and the other financial information appearing elsewhere in this Report. Period-to-period comparisons of financial data are not necessarily indicative, and therefore should not be relied upon as indicators, of the Trust’s future performance. Words or phrases such as “does not believe” and “believes”, or similar expressions, when used in this Form 10-Q or other filings with the Securities and Exchange Commission, are intended to identify “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995.

Results of Operations for the Quarter Ended June 30, 2012 Compared to the Quarter Ended June 30, 2011

Earnings per Sub-share certificate were \$.59 for the second quarter of 2012, compared to \$.58 for the second quarter of 2011. Total operating and investing revenues were \$8,706,738 for the second quarter of 2012 compared to \$8,798,987 for the second quarter of 2011, a decrease of 1.0%. This decrease in revenue was due primarily to decreases in land sales, oil and gas royalty revenue, and interest income from notes receivable, which were largely offset by an increase in easement and sundry income.

In the second quarter of 2012 the Trust sold approximately 1,792 acres for a total of \$2,242,747, or approximately \$1,252 per acre. In the second quarter of 2011 the Trust sold approximately 6,682 acres for a total of \$3,680,500, or approximately \$551 per acre.

Rentals, royalties and sundry income were \$6,278,498 during the second quarter of 2012, compared to \$4,885,782 for the second quarter of 2011, an increase of 28.5%. This increase resulted from an increase in easement and sundry income, partially offset by a decrease in oil and gas royalty revenue.

Oil and gas royalty revenue was \$3,328,254 for the second quarter of 2012, compared to \$3,591,193 for the second quarter of 2011, a decrease of 7.3%. Oil royalty revenue was \$2,762,049 for the second quarter of 2012, a decrease of 3.5% from the second quarter of 2011 when oil royalty revenue was \$2,862,705. This decrease was due to decreases in both price and volume. The average price per royalty barrel of crude oil during the second quarter of 2012 was 2.4% lower than the average price prevailing during the second quarter of 2011. In addition, crude oil production subject to the Trust’s royalty interest decreased 1.1% in the second quarter of 2012 compared to the second quarter of 2011. Gas royalty revenue was \$566,205 for the second quarter of 2012, a decrease of 22.3% from the second quarter of 2011 when gas royalty revenue was \$728,488. This decrease in gas royalty revenue resulted from a price decrease of 39.4% in the second quarter of 2012 compared to the second quarter of 2011, which more than offset a volume increase of 28.2% over the same period.

Easement and sundry income was \$2,776,197 for the second quarter of 2012, an increase of 150.0% compared to the second quarter of 2011 when easement and sundry income was \$1,110,719. This increase resulted primarily from increases in pipeline easement income, sundry income, and sundry lease rental income caused by an increase in drilling and exploration activity on land owned by the Trust. This category of income is unpredictable and may vary significantly from quarter to quarter.

Interest income, including interest on investments, was \$185,493 for the second quarter of 2012 compared to \$232,705 for the second quarter of 2011, a decrease of 20.3%. Interest on notes receivable for the second quarter of 2012 was \$180,489, a decrease of 20.9% compared to the second quarter of 2011 when interest on notes receivable was \$228,314. As of June 30, 2012, notes receivable for land sales were \$10,182,840 compared to \$12,534,550 at June 30, 2011, a decrease of 18.8%. Interest income earned from investments was \$5,004 for the second quarter of 2012, an increase of 14.0% from the second quarter of 2011. Interest on investments is affected by such variables as cash on hand for investment and the rate of interest on short-term investments.

Taxes, other than income taxes, decreased 6.2% for the second quarter of 2012 compared to the second quarter of 2011. This decrease is mainly attributable to a decrease in oil and gas production taxes which resulted from the decrease in oil and gas royalty revenue discussed above.

General and administrative expenses for the second quarter of 2012 were down 3.8%, compared to the second quarter of 2011. This was primarily due to a decrease in legal expenses.

Results of Operations for the Six Months Ended June 30, 2012 Compared to the Six Months Ended June 30, 2011

Earnings per Sub-share certificate were \$1.24 for the first six months of 2012, compared to \$.93 for the first six months of 2011. Total operating and investing revenues were \$18,286,817 for the first six months of 2012 compared to \$14,519,095 for the first six months of 2011, an increase of 26.0%. This increase in revenue and earnings was primarily due to increases in easement and sundry income and land sales, which were partially offset by decreases in gas royalty revenue and interest income from notes receivable.

During the first six months of 2012 the Trust sold approximately 7,252 acres for a total of \$5,809,747, or approximately \$801 per acre. In the first six months of 2011 the Trust sold approximately 6,750 acres for a total of \$4,192,000, or approximately \$621 per acre.

Rentals, royalties, and sundry income were \$12,104,019 for the first six months of 2012 compared to \$9,841,038 for the first six months of 2011, an increase of 23.0%. This increase resulted primarily from an increase in easement and sundry income, partially offset by a decrease in gas royalty revenue.

Oil and gas royalty revenue was \$6,762,080 for the first six months of 2012 compared to \$7,067,415 for the first six months of 2011, a decrease of 4.3%. Oil royalty revenue was \$5,608,621 for the first six months of 2012, an increase of 0.5% from the first six months of 2011 when oil royalty revenue was \$5,578,871. The average price per royalty barrel of crude oil during the first six months of 2012 was 5.6% higher than the average price prevailing during the first six months of 2011. This price increase more than offset a decrease of 4.8% in the volume of crude oil production subject to the Trust's royalty interest in the first six months of 2012 compared to the first six months of 2011. Gas royalty revenue was \$1,153,459 for the first six months of 2012, a decrease of 22.5% from the first six months of 2011 when gas royalty revenue was \$1,488,544. This decrease in gas royalty revenue resulted from a price decrease of 31.8% in the first six months of 2012 compared to the first six months of 2011, partially offset by a volume increase of 13.4% over the same period.

Easement and sundry income was \$5,072,105 for the first six months of 2012, an increase of 103.4% compared to the first six months of 2011 when easement and sundry income was \$2,494,235. This increase resulted primarily from increases in sundry income, pipeline easement income, and sundry lease rental income caused by an increase in drilling and exploration activity on land owned by the Trust. This category of income is unpredictable and may vary significantly from quarter to quarter.

Interest income, including interest on investments, was \$373,051 for the first six months of 2012 compared to \$486,057 for the first six months of 2011, a decrease of 23.2%. Interest on notes receivable for the first six months of 2012 was \$362,850, a decrease of 24.0% compared to the first six months of 2011 when interest on notes receivable was \$477,326. As of June 30, 2012, notes receivable for land sales were \$10,182,840 compared to \$12,534,550 at June 30, 2011, a decrease of 18.8%. Interest income earned from investments was \$10,201 for the first six months of 2012, an increase of 16.8% from the first six months of 2011. Interest on investments is affected by such variables as cash on hand for investment and the rate of interest on short-term investments.

Taxes, other than income taxes, were essentially flat for the first six months of 2012 compared to the first six months of 2011.

General and administrative expenses for the first six months of 2012 were down 5.9% compared to the first six months of 2011. This decrease was primarily due to a decrease in legal expenses.

Liquidity and Capital Resources

The Trust's principal sources of liquidity are revenues from oil and gas royalties, lease rentals and receipts of interest and principal payments on the notes receivable arising from land sales. In the past, those sources have generated more than adequate amounts of cash to meet the Trust's needs and, in the opinion of management, should continue to do so in the foreseeable future.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in the information related to market risk of the Trust since December 31, 2011.

Item 4. Controls and Procedures

Pursuant to Rule 13a-15, management of the Trust under the supervision and with the participation of Roy Thomas, the Trust's Chief Executive Officer, and David M. Peterson, the Trust's Chief Financial Officer, carried out an evaluation of the effectiveness of the design and operation of the Trust's disclosure controls and procedures as of the end of the Trust's fiscal quarter covered by this Report on Form 10-Q. Based upon that evaluation, Mr. Thomas and Mr. Peterson concluded that the Trust's disclosure controls and procedures are effective in timely alerting them to material information relating to the Trust required to be included in the Trust's periodic SEC filings.

There have been no changes in the Trust's internal control over financial reporting during the Trust's most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Trust's internal control over financial reporting.

**PART II
OTHER INFORMATION**

Item 1A. Risk Factors

There have been no material changes in the risk factors previously disclosed in response to Item 1A “Risk Factors” of Part I of the Trust’s Annual Report to the Securities and Exchange Commission on Form 10-K for the year ended December 31, 2011.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(c) During the second quarter of 2012, the Trust repurchased Sub-share certificates as follows:

CERTIFICATION

I, Roy Thomas, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the quarter ended June 30, 2012 of Texas Pacific Land Trust;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
